Strategic Goals

- **Strategic Goal 1: Promote conservation including preservation, sustainable use and restoration of biodiversity at all levels – ecosystems, species and genetic resources**
- **Strategic Goal 2: Ensure participatory management based on principles of equity and benefit sharing**
- **Strategic Goal 3: Respond to the need for elimination of the threats to biodiversity by reducing both direct and indirect pressures on it as a common responsibility of all people**
- **Strategic Goal 4: Contribute to good governance of natural resources**
